**Supplemental Financial Information  
For the Quarter Ended March 31, 2014**

The Company's supplemental financial information and other data presented herein speaks only as of the date or period indicated (or as of the date posted, as the case may be), and the Company does not undertake any obligation, and disclaims any duty, to update any of this information. The Company's future financial performance is subject to various risks and uncertainties that could cause actual results to differ materially from expectations. The factors that could affect the Company's future financial results are discussed more fully in our reports filed with the SEC. Readers are advised to refer to these reports for additional information concerning the Company. Readers are also advised that the Company's historical performance may not be indicative of future results. In addition, the information contained herein does not constitute an offer to sell or a solicitation to buy any of the Company's securities.

<b>Pro forma Adjusted Diluted Earnings Per Share</b>	<u>\$ 0.44</u>	<u>\$ 0.44</u>	<u>\$ 1.83</u>

Note 1: On May 20, 2013, CCA paid a special dividend in connection with its conversion to a REIT. The shareholders were allowed to elect to receive their payment of the special dividend either in all cash, all shares of CCA common stock, or a combination of cash and CCA common stock, except that CCA placed a limit on the aggregate amount of cash payable to the shareholders. Under ASC 505, "Equity" and ASU 2010-01, "Accounting for Distributions to Shareholders with Components of Stock and Cash, a consensus of the FASB Emerging Issues Task Force", a distribution that allows shareholders to elect to receive cash or stock with a potential limitation on the total amount of cash that all shareholders can elect to receive in the aggregate is considered a share issuance that is reflected in per share results prospectively. As such, the stock portion of the special dividend is presented prospectively in basic and diluted per share results and was not presented retroactively for all periods presented as it would, for example, with a stock split or a stock dividend. As a result CCA believes investors would benefit from seeing the operating performance for the comparable periods accounting for the effect of the special dividend in both periods. Therefore, for comparison purposes, CCA has presented per share results on a pro forma basis as if the shares issued in the special dividend were issued as of the beginning of the periods presented.

FFO and AFFO are widely accepted non-GAAP supplemental measures of REIT performance following the standards established by the National Association of Real Estate Investment Trusts (NAREIT). CCA believes that FFO and AFFO are important operating measures that supplement discussion and analysis of the Company's results of operations and are used to review and assess operating performance of the Company and its correctional facilities and their management teams. NAREIT defines FFO as net income computed in accordance with generally accepted accounting principles, excluding gains (or losses) from sales of property and extraordinary items, plus depreciation and amortization of real estate and impairment of depreciable real estate. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), this accounting presentation assumes that the value of real estate assets diminishes at a level rate over time. Because of the unique structure, design and use of the Company's correctional facilities, management believes that assessing performance of the Company's correctional facilities without the impact of depreciation or amortization is useful. CCA may make adjustments to FFO from time to time for certain other income and expenses that it considers non-recurring, infrequent or unusual, even though such items may require cash settlement, because such items do not reflect a necessary component of the ongoing operations of the Company. Normalized FFO excludes the effects of such items. CCA calculates AFFO by adding to Normalized FFO non-cash expenses such as the amortization of deferred financing costs and stock-based compensation, and by subtracting from Normalized FFO recurring real estate expenditures that are capitalized and then amortized, but which are necessary to maintain a REIT's properties and its revenue stream. Some of these capital expenditures contain a discretionary element with respect to when they are incurred, while others may be more urgent. Therefore, these capital expenditures may fluctuate from quarter to quarter, depending on the nature of the expenditures required, seasonal factors such as weather, and budgetary conditions. Other companies may calculate FFO, Normalized FFO, and AFFO differently than the Company does, or adjust for other items, and therefore comparability may be limited. FFO, Normalized FFO, and AFFO and their corresponding per share measures are not measures of performance under GAAP, and should not be considered as an alternative to cash flows from operating activities, a measure of liquidity or an alternative to net income as indicators of the Company's operating performance or any other measure of performance derived in accordance with GAAP. This data should be read in conjunction with the Company's consolidated financial statements and related notes included in its filings with the Securities and Exchange Commission.

(1) See Note 1 on page 5.

(1) The calculations of expenses per man-day exclude expenses incurred during the first quarter of 2014 for the Diamondback facility because of the distorted impact they have on the statistics. The expenses were incurred in connection with the activation of the facility in anticipation of a new contract. In April 2014, the decision was made to once again idle the facility in the absence of a definitive customer contract.

**Expansion and Development Projects:**

<u>Facility Name</u>	<u>Estimated Completion</u>	<u>Potential Customer(s)</u>	<u>Design Capacity (B)</u>	<u>Project Description</u>
Otay Mesa Detention Center San Diego, California	Third quarter 2015	ICE	1,492	New owned facility
Trousdale Correctional Center Hartsville, Tennessee	Fourth quarter 2015	State of Tennessee	2,552	New owned facility
<b>Projected Design Capacity for Expansion and Development Projects</b>			<u>4,044</u>	

(A) The year constructed represents the initial completion of the facility's construction, as well as significant additions to the facility that occurred at a later date.

(B) Design capacity measures the number of beds, and accordingly, the number of inmates each facility is designed to accommodate. Facilities housing detainees on a short term basis may exceed the original intended design capacity for sentenced inmates due to the lower level of services required by detainees in custody for a brief period. From time to time, we may evaluate the design capacity of our facilities based on the customers using the facilities, and the ability to reconfigure space with minimal capital outlays. We believe design capacity is an appropriate measure for evaluating prison operations, because the revenue generated by each facility is based on a per diem or monthly rate per inmate housed at the facility paid by the corresponding contracting governmental entity.

(C) We manage numerous facilities that have more than a single function (i.e., housing both long-term sentenced adult prisoners and pre-trial detainees). The primary functional categories into which facility types are identified was determined by the relative size of prisoner populations in a particular facility on March 31, 2014. If, for example, a 1,000-bed facility housed 900 adult prisoners with sentences in excess of one year and 100 pre-trial detainees, the primary functional category to which it would be assigned would be that of correction facilities and not detention facilities. It should be understood that the primary functional category to which multi-user facilities are assigned may change from time to time.

(D) Remaining renewal options represents the number of renewal options, if applicable, and the remaining term of each option renewal.

(E) Pursuant to the terms of a contract awarded by the state of Arizona in September 2012, the state of Arizona has an option to purchase the Red Rock facility at any time during the term of the contract, including extension options, based on an amortization schedule starting with the fair market value and decreasing evenly to zero over the twenty year term.

(F) The facility is subject to a ground lease with the County of San Diego. Upon expiration of the lease in December 2015, ownership of the facility automatically reverts to the County of San Diego.

(G) The facility is subject to a purchase option held by the Georgia Department of Corrections, or GDOC, which grants the GDOC the right to purchase the facility for the lesser of the facility's depreciated book value, as defined, or fair market value at any time during the term of the contract between us and the GDOC.

<u>Facility Name</u>	<u>Year Constructed (A)</u>	<u>Primary Customer</u>	<u>Design Capacity (B)</u>	<u>Security Level</u>	<u>Facility Type (C)</u>	<u>Term</u>	<u>Remaining Renewal Options (D)</u>	<u>Compensated Occupancy % for the Quarter ended 3/31/14</u>
<p>(H) In late January 2012, the governor of Kentucky submitted his proposed budget which included the transfer of the inmates held at our Otter Creek Correctional Center to a facility owned by the Commonwealth of Kentucky by the end of July 2012. The facility is subject to a deed of conveyance with the city of Wheelwright, KY which includes provisions that would allow assumption of ownership by the city of Wheelwright under the following occurrences: (1) we cease to operate the facility for more than two years, (2) our failure to maintain at least one employee for a period of sixty consecutive days, or (3) a conversion to a maximum security facility based upon classification by the Kentucky Corrections Cabinet. In December 2013, we entered into an agreement with the city of Wheelwright that extends the reversion by up to two years in exchange for \$20,000 per month or until we resume operations, as defined in the agreement.</p> <p>(I) The facility is subject to a purchase option held by the Tallahatchie County Correctional Authority which grants Tallahatchie County Correctional Authority the right to purchase the facility at any time during the contract at a price generally equal to the cost of the premises less an allowance for amortization originally over a 20 year period. The amortization period was extended through 2050 in connection with an expansion completed during the fourth quarter of 2007.</p> <p>(J) The State of Montana has an option to purchase the facility generally at any time during the term of the contract with us at fair market value less the sum of a pre-determined portion of per-diem payments made to us by the state of Montana.</p> <p>(K) The state of Ohio has the irrevocable right to repurchase the facility before we may resell the facility to a third party, or if we become insolvent or are unable to meet our obligations under the management contract with the state of Ohio, at a price generally equal to the fair market value, as defined in the Real Estate Purchase Agreement.</p> <p>(L) The facility is subject to a purchase option held by the Oklahoma Department of Corrections, or ODC, which grants the ODC the right to purchase the facility at its fair market value at any time.</p> <p>(M) The state of Tennessee has the option to purchase the facility in the event of our bankruptcy, or upon an operational or financial breach, as defined, at a price equal to the book value, as defined.</p> <p>(N) The District of Columbia has the right to purchase the facility at any time during the term of the contract at a price generally equal to the present value of the remaining lease payments for the premises. Upon expiration of the lease in 2017, ownership of the facility automatically reverts to the District of Columbia.</p> <p>(O) During the second quarter of 2013, the state of Idaho reported that they expected to solicit bids for the management of this facility upon expiration of the contract in June 2014. During the third quarter of 2013, we decided not to submit a bid and, therefore, expect to transition management to another operator upon expiration of the contract.</p> <p>(P) Effective December 1, 2013, we entered into a lease for our California City Correctional Center with the state of California Department of Corrections and Rehabilitation, or CDCR. The lease agreement includes a three-year base term with unlimited two-year renewal options upon mutual agreement.</p> <p>(Q) During September 2013, we entered into a lease agreement with Management and Training Corporation to assume the operation of this facility.</p>
