FFO and AFFO are widely accepted non-GAAP supplemental measures of REIT performance following the standards established by the National Association of Real Estate Investment Trusts (NAREIT). CCA believes that FFO and AFFO are important operating measures that supplement discussion and analysis of the Company's results of operations and are used to review and assess operating performance of the Company and its correctional facilities and their management teams. NAREIT defines FFO as net income computed in accordance with generally accepted accounting principles, excluding gains (or losses) from sales of property and extraordinary items, plus depreciation and amortization of real estate and impairment of depreciable real estate. Because the historical cost accounting convention used for real estate assets requires depreciation (except on land), this accounting presentation assumes that the value of real estate assets diminishes at a level rate over time. Because of the unique structure, design and use of the Company's correctional facilities, management believes that assessing performance of the Company's correctional facilities without the impact of depreciation or amortization is useful. CCA may make adjustments to FFO from time to time for certain other income and expenses that it considers non-recurring, infrequent or unusual, even though such items may require cash settlement, because such items do not reflect a necessary component of the ongoing operations of the Company. Normalized FFO excludes the effects of such items. CCA calculates AFFO by adding to Normalized FFO non-cash expenses such as the amortization of deferred financing costs and stock-based compensation, and by subtracting from Normalized FFO recurring real estate expenditures that are capitalized and then amortized, but which are necessary to maintain a REIT's properties and its revenue stream. Some of these capital expenditures contain a discretionary element with respect to when they are incurred, while others may be more urgent. Therefore, these capital expenditures may fluctuate from quarter to quarter, depending on the nature of the expenditures required, seasonal factors such as weather, and budgetary conditions. Other companies may calculate FFO, Normalized FFO, and AFFO differently than the Company does, or adjust for other items, and therefore comparability may be limited. FFO, Normalized FFO, and AFFO and their corresponding per share measures are not measures of performance under GAAP, and should not be considered as an alternative to cash flows from operating activities, a measure of liquidity or an alternative to net income as indicators of the Company's operating performance or any other measure of performance derived in accordance with GAAP. This data should be read in conjunction with the Company's consolidated financial statements and related notes included in its filings with the Securities and Exchange Commission.

(1) The calculations of expenses per man-day for the first and second quarters of 2014 exclude expenses incurred for the Diamondback facility because of the distorted impact they have on the statistics. The expenses were incurred in connection with the activation of the facility in anticipation of a new contract. In April 2014, the decision was made to once again idle the facility in the absence of a definitive customer contract. The de-activation was completed near the end of the second quarter of 2014.

(2) Fixed expense and the corresponding fixed expense per compensated man-day for the three and six months ended June 30, 2015 includes depreciation expense of \$8.5 million and interest expense of \$2.2 million associated with the South Texas Family Residential Center (STFRC) lease payments. These amounts are also deducted from our calculation of Adjusted EBITDA, because we believe this presentation is more reflective of the cash flows associated with the facility's operations, and therefore cash available to service our debt and pay dividends to our shareholders.

<sup>2)</sup> During March 2013, the Company amended and extended the revolving credit facility to an aggregate capacity of \$900.0 million with a maturity of December 2017. On July 22, 2015, the Company further amended and restated the \$900.0 million revolving credit facility with principally the same terms, with the exception of a reduction by 0.25% in the applicable margin of base rate and LIBOR rate loans and a new five-year-term, among other changes. The \$900.0 million revolving credit facility now matures in July 2020. The Company also has \$14.1 million of letters of credit outstanding under a sub-facility reducing the available capacity under the revolving credit facility to \$322.9 million as of June 30, 2015. Based on the Company's current leverage ratio, the revolving credit facility bears interest at LIBOR plus a margin of 1.25%.

<sup>3)</sup> Represents the weighted average debt maturity in years.

<b>Projected Design Capacity for Expansion and Development Projects</b>			<u>4,044</u>			

(A) The year constructed/acquired represents the initial date of acquisition or completion of construction of the facility, as well as significant additions to the facility that occurred at a later date.

(B) Design capacity measures the number of beds, and accordingly, the number of offenders each facility is designed to accommodate. Facilities housing detainees on a short term basis may exceed the original intended design capacity due to the lower level of services required by detainees in custody for a brief period. From time to time, we may evaluate the design capacity of our facilities based on the customers using the facilities, and the ability to reconfigure space with minimal capital outlays. We believe design capacity is an appropriate measure for evaluating prison operations, because the revenue generated by each facility is based on a per diem or monthly rate per inmate housed at the facility paid by the corresponding contracting governmental entity.

(C) We manage numerous facilities that have more than a single function (i.e., housing both long-term sentenced adult prisoners and pre-trial detainees). The primary functional categories into which facility types are identified was determined by the relative size of prisoner populations in a particular facility on June 30, 2015. If, for example, a 1,000-bed facility housed 900 adult prisoners with sentences in excess of one year and 100 pre-trial detainees, the primary functional category to which it would be assigned would be that of correction facilities and not detention facilities. It should be understood that the primary functional category to which multi-user facilities are assigned may change from time to time.

(D) Remaining renewal options represents the number of renewal options, if applicable, and the remaining term of each option renewal.

(E) Pursuant to the terms of a contract awarded by the state of Arizona in September 2012, the state of Arizona has an option to purchase the Red Rock facility at any time during the term of the contract, including extension options, based on an amortization schedule starting with the fair market value and decreasing evenly to zero over the twenty year term.

(F) The facility is subject to a ground lease with the County of San Diego. Upon expiration of the lease in December 2015, ownership of the facility automatically reverts to the County of San Diego. During the second half of 2015, we expect to transfer the offenders at this facility to a new facility we are constructing in Otay Mesa, California.

(G) The facility is subject to a purchase option held by the Georgia Department of Corrections, or GDOC, which grants the GDOC the right to purchase the facility for the lesser of the facility's depreciated book value, as defined, or fair market value at any time during the term of the contract between us and the GDOC.

(H) During May 2015, the state of Vermont announced that it elected to not renew the contract that would have allowed for Vermont's continued use of this facility. The contract expired on June 30, 2015.

## FACILITY PORTFOLIO

(I) In late January 2012, the governor of Kentucky submitted his proposed budget which included the transfer of the inmates held at our Otter Creek Correctional Center to a facility owned by the Commonwealth of Kentucky by the end of July 2012. The facility is subject to a deed of conveyance with the city of Wheelwright, KY which includes provisions that would allow assumption of ownership by the city of Wheelwright under the following occurrences: (1) we cease to operate the facility for more than two years, (2) our failure to maintain at least one employee for a period of sixty consecutive days, or (3) a conversion to a maximum security facility based upon classification by the Kentucky Corrections Cabinet. In December 2013, we entered into an agreement with the city of Wheelwright that extends the reversion by up to two years in exchange for \$20,000 per month or until we resume operations, as defined in the agreement.

(J) The facility is subject to a purchase option held by the Tallahatchie County Correctional Authority which grants Tallahatchie County Correctional Authority the right to purchase the facility at any time during the contract at a price generally equal to the cost of the premises less an allowance for amortization originally over a 20 year period. The amortization period was extended through 2050 in connection with an expansion completed during the fourth quarter of 2007.

(K) The State of Montana has an option to purchase the facility generally at any time during the term of the contract with us at fair market value less the sum of a pre-determined portion of per-diem payments made to us by the state of Montana.

(L) The state of Ohio has the irrevocable right to repurchase the facility before we may resell the facility to a third party, or if we become insolvent or are unable to meet our obligations under the management contract with the state of Ohio, at a price generally equal to the fair market value, as defined in the Real Estate Purchase Agreement.

(M) During December 2014, we were notified by the BOP that it elected not to renew its contract at this facility upon the scheduled expiration in May 2015. We expect to continue to house USMS detainees at this facility pursuant to a separate contract that expires December 31, 2016, while we continue to market the space that became available.

(N) The facility is subject to a purchase option held by the Oklahoma Department of Corrections, or ODC, which grants the ODC the right to purchase the facility at its fair market value at any time.

(O) The state of Tennessee has the option to purchase the facility in the event of our bankruptcy, or upon an operational or financial breach, as defined, at a price equal to the book value, as defined.

(P) The District of Columbia has the right to purchase the facility at any time during the term of the contract at a price generally equal to the present value of the remaining lease payments for the premises. Upon expiration of the lease in 2017, ownership of the facility automatically reverts to the District of Columbia.

(Q) In early April 2015, we provided notice to the state of Louisiana that we will cease management of this facility within 180 days, in accordance with the notice provisions of the contract.
